The Responsible Anarchists

We're responsibile anarchists.
We don't abide by the status quo.
We don't work from anywhere, we work *anywhere*.
Our work is not *agile*, is fast.
We're optimists and pessimists.
We like to compete, but *adore* to fight.
We don't develop explorers, we craft them.
Our only law is code, and our only future is onchain.
